

## **SLSA COVID-19 SAFETY GUIDELINES**

If you are sick with COVID-19 symptoms, **Stay Home!**

If a member of your household has COVID-19 symptoms, **Stay Home!**

If you have knowingly been exposed to the coronavirus (SARS-CoV-2), **Stay Home!**

- Proper physical distancing and sanitation practices must be observed by everyone. Wash your hands and maintain a safe six-foot physical distance as much as possible.
- The SLO County Public Health Department is recommending face coverings in certain situations. Specifically, if people cannot maintain six feet of physical distance from other members at SLSA, they recommend wearing cloth face coverings (such as bandanas or scarves, or homemade mouth and nose coverings). Be prepared and bring a face mask with you when visiting the SLSA range. You may need it. Do not dispose of your face mask at the range. Take it home with you.
- Bottles of hand sanitizer will be available in all restrooms and at all ranges.
- No guests ... no public ... no groups. Members and immediate household family only. This will help reduce exposure to other members as well as interactions with SLSA RSOs on the weekends.
